A SEMINAR ON

PURPOSE AND IMPORTANCE OF ICT IN CLASSROOM

Date- 18.08.2018

Venue-Derabis Degree College, Derabish, Kendrapara.

About the College:

Each and every institution has its own history. The history of **Derabis College** dates back to the year 1981 when some enlightened minds of this locality thought about the setting up a College in such a remote and underdeveloped area like Derabis with a mission and vision of providing a sphere of higher education. Their idea of establishing a centre of higher education has been a magical spirit for the then enterprising locals.Location of the College is quite convenient. Situated at the heart of Derabish, it is 03Kms away from Chhata Chhak on NH-5(A), 07Kms from Cuttack Chandabali Road, 70Kms from Cuttack vi²a Chandikhol and 55Kms from Cuttack via Salepur.

Mission and Vision

To provide education in the best possible form for the students to be with all round personality development leading to a prosperous career with high sense of academic excellence.

To expand education and dissemination of knowledge to the denied and underprivileged sections of men and women in the Society.

To imbibe scientific temperament with human values I the minds, for the upliftment of men and women.

To inculcate the spirit of consciousness with regards to the constitutional rights and lead them to the interest of the National mainstream.

The institutional logo comprises of three distinct dynamic features such as the temple, the burning lamp and the open book. It symbolizes that the College aims at imparting knowledge by dispelling darkness in a continuous process keeping in view of the glorious past, the dynamic present and the prosperous future.

ABSTRACT

PURPOSE AND IMPORTANCE OF ICT IN CLASSROOM

DATE-18.08.2018

ICT helps the students to develop new skills and become more creative. ICT stimulates the development of imaginations as well as initiatives. It is a valuable tool for producing work. As ICT in education advances information, not only teachers who support learning but also students will be able to acquire knowledge and skills of it devices. Literacy will help students to select and use necessary information and to develop the ability to think for themselves. ICT provides variety in the presentation of content, which helps learner to learn according to their own pace. It helps in better understanding. The teacher can teach students how to use ICT effectively and safely to support their learning. It provides context and guidance to teacher. Teacher can helps students to understand how technology relates to learning objectives and how to use it appropriately in the classroom context.

Abstract — Food safety issues are best decided in terms of cient markets. Dependence on alternative sources exists, but he case of underproduction by natural disasters (drought, od, crop failure), even those countries that have a policy of d self-sufficiency are forced to rely on imports. The rticipants of the economic debate on the issue of the ationship of food self-sufficiency and food security are divided o two sides: the first believe that self-sufficiency is the only arantee of food security in the long term plan; others rely on free trade system capable of ensuring long-term food security all.

Keywords — food security, system, self-sufficiency rate, food fety.

I. Introduction

At the time of food safety development it is necessary to sure the joint targeted and coordinated action of the gislative and executive structures at all levels, to create an propriate legal framework, to develop an effective ganizational and economic mechanism.

In order to resolve food safety issues, the following lministrative measures are used: adoption of a system of rmative and legal acts, it is necessary to develop and adopt a gional food security strategy at the regional level.

Moreover, taking into account the intention to integrate to the world and European community, one needs to prove the legislative framework in accordance with ternational standards.

World practice shows that the underestimation of the conomic role of the state generates negative consequences. At the same time, one cannot exaggerate the capabilities of the tate without recognizing the role of the market economy.

An intelligent synthesis of state regulation and market mechanism solves the main socio-economic problems of the agricultural sector of the country. State intervention in the market economy should be economically justified and acceptable on the scale that enhances economic efficiency [Battalova and Kundakchyan, 2015].

The state is obliged to use its regulatory functions to enhance food market opportunities by eliminating the weaknesses in the domestic market, prevention of external influences, strict control of natural or other monopoly, as well as providing consumers with accurate information about the quantity and quality of food products. Applying regulatory functions, the state and its organs should examine in detail the possibility and effectiveness of various methods of regulatory impact in a particular case [2].

The intention of the country to enter in the international community justify the necessity of a systematic approach to the analysis of contemporary processes of agricultural production development in order to develop appropriate regulatory mechanisms that can ensure a fast adaptation to new conditions of industry management.

Global trends in the context of globalization are related, on the one hand – with the more open markets for food (for developing countries), on the other hand – with targeted measures to ensure food security of every developed nation by implementing protectionist measures.

The complexity of food safety issue necessitates finding ways and mechanisms to ensure it. Developed countries use, as a rule, two basic approaches to food security: the first – the priority support of agricultural producers and the guaranteed maximum of self-sufficiency by all major types of food, the second - the same support for both producers and consumers of food [1].

To ensure food security, one must take into account the relationship between their own products and imported production, the situation of processing industries development, procurement and trade places, food price-making available to the general public and so on. So, in fact, food security covers the entire agro-industrial complex of the country. The inputs are formed in the area of agro-industrial production, respectively, the agro-industrial complex is a guarantor of social and economic stability of society, economic security and independence [5].

On that basis, we have identified key factors of food security (Fig. 1).

Seminar Report:

Date: 20.08.2018

A Dept. level Seminar was organised in the Dept. of Pol.Sc on DT. 20.08.2018 at 11.00 A.M.

Topic of the Seminar: " Party System in India".

Inauguration of the Seminar by Mr. Chaturbhuja Kar, The Hon'ble Principal of the Derabis College, Derabish

Coordinator of the Seminar: Santanu Kumar Mati, HOD, Pol.Sc.

Resource Person of the Event: Prof. Nandakisore Parida, Reader.in Pol.Sc and Former Principal of Kendrapara Autonomous College, Kendrapara.

The seminar was inaugurated by the chief guest Mr. Chaturbhuja Kar, Principal of the college. Welcome address delivered by Mr. Santanu Kumar Mati, HOD. of Department of Pol.Sc . Then the resource perperson Prof. Nandakisore Parida delivered his speech on the topic. He put his ideas and thoughts in a very lucid language giving meaning and features of Party system in India. He discused ideologies of different political parties, but in true sense these parties don't carry out their ideologies and after the general election they forget to implement their election manifesto. The chief guest, our beloved principal put his views before the students regarding party system of our country. Mr. Santanu Kumar Mati, Mr. Brundaban Das, and Dr. Sandeep Kumar Bal presented their views on the topic. More than 30 students participated in seminar discussion.

The Seminar was over with the vote of thanks by Sandeep Bal to the members present.

Topic of the Seminar: " Party System in India".

Date: 20.08.2018

ABSTRACT

India is a vast country where there is provision for multi-party system. In this system there are a lot of political parties. They are right right parties, centrist parties and left parties. They form their own policies and programmes to attract the people. Various political parties fight democratically for power. The political parties are organised with a shared political ideology that try to gain power and rule the country through constitutional means for national interests. Political parties in India are recognised at the national level and state level by election commissioner of India. They are called national and regional political parties. Most political parties in India are formed by the people based on political and socio-economic programmes. In some cases, the parties are created based on culture, language, caste or religion.

A SEMINAR ON

"POSITION OF WOMEN IN ANCIENT AND PRESENT INDIA".

DATE- 23/08/2018.

Venue-Derabis Degree College, Derabish, Kendrapara.

About the College:

Each and every institution has its own history. The history of Derabis College dates back to the year 1981 when some enlightened minds of this locality thought about the setting up a college in such a remote and underdeveloped area like Derabis with a mission and vision of providing a sphere of higher education. Their idea of establishing a centre of higher education has been a magical spirit for the then enterprising locals. Location of the College is quite convenient. Situated at the heart of Derabish, it is 03Kms away from Chhata Chhak on NH-5(A), 07Kms from Cuttack Chandabali Road, 70Kms from Cuttack via Chandikhol and 55Kms from Cuttack via Salepur.

Mission and Vision

- To provide education in the best possible form for the students to be with all round personality development leading to a prosperous career with high sense of academic excellence.
- To expand education and dissemination of knowledge to the denied and underprivileged sections of men and women in the Society.
- To imbibe scientific temperament with human values I the minds, for the upliftment of men and women.
- To inculcate the spirit of consciousness with regards to the constitutional rights and lead them to the interest of the National mainstream.
- The institutional logo comprises of three distinct dynamic features such as the temple, the burning lamp and the open book. It symbolizes that the College aims at imparting knowledge by dispelling darkness in a continuous process keeping in view of the glorious past, the dynamic present and the prosperous future.

The objective of the Seminar is likely:

1. To discuss about the role of women in ancient India.

2. To discuss about the impact of status of ancient India on present India.

DEPARTMENTAL SEMINAR –

1. TITLE OF THE SEMINAR- POSITION OF WOMEN IN ANCIENT AND PRESENT INDIA
2. ORGANISER- DEPARTMENT OF HISTORY
3. DATE-23.08.18
4. VENUE- DEPT OF HISTORY, DERABIS COLLEGE, DERABISH
5. BRIEF INTRODUCTION OF THE RESOURCE PERSON

Dr Harish Chandra Prusty, Principal Sahaspur College, Balichandrapur, Jajpur and Tapan Kumar Pati HOD, Dept of History, Kendrapara Auto College, Kendrapara attented the seminar as resource person, they both discussed about the topic briefly.

BRIEF REPORT ON THE SEMINAR-

A seminar on POSITION OF WOMEN IN ANCIENT AND PRESENT INDIA was organized by the Dept of History on dated 23.08.18. Dr Harish Chandra Prusty, Principal Sahaspur College, Balichandrapur, Jajpur and Tapan Kumar Pati HOD, Dept of History, Kendrapara Auto College, Kendrapara attented the seminar as resource person and delivers their talk about Women are the gift to the society. During ancient period of India, women played a significant role. The Rig Vedic Women in India enjoyed high status in society. Their condition was good. The women were provided opportunity to attain high intellectual and spiritual standard. There were marry women Rishis during this period. Though monogamy was mostly common, the richer section of the society indulged in polygamy. There was no sati system or early marriage. But from enjoying free and esteemed positions in the Rig-Vedic society, women started being discriminated against since the Later-Vedic period in education and other rights and facilities. Child marriage, widow burning, the purdah and polygamy further worsened the women's position the status of women began to decline in the medieval period. During this period, there was prevalence of the Muslim era. This period brought about changes in the lives of women to a major extent. They were regarded as inferior as compared to their male counterparts. The birth of the girl children was not appreciated. During this period, the women were required to experience number of problems. The various problems that were experienced by women, which led to a decline in their status were, child marriage, purdah system, sati, jauhar and restriction on the education of the girls. Furthermore, there were implementation of factors, which led to improvements in their status. Sri Nagendranath Pani, HOD of the Department thoroughly describe about the topic and finally . Rudrangi Pattanaik Lecturer in History extended the vote of thanks.

DERABISH COLLEGE

Scanned with OKEN Scanner

ABSTRACT:

An understanding of the status of women in ancient India. In ancient times, the women were considered with respect and dignity. During this period, there were women rishis, and they were held in high esteem. In royal households, women were given respect and they even rendered a significant contribution in the making of decisions and administrative functions. They were made aware in terms of all areas and played an important part in politics as well. Whereas, among the economically weaker sections of the society, birth of girl child was not appreciated and preference was given to male children. The main areas that have been taken into account in this research paper include, women's position in ancient India, position of women in the Hindu dharma, concept of female infanticide and female foeticide in ancient India, male ratio adverse female ratio, ancient women and education, and ancient women and politics.

However, from 1500 BC onwards, the status of women gradually declined, and by 500 BC-1800 AD women saw a significant deterioration in their rights, facing restrictions on inheritance, education, age of marriage, and autonomy, and were expected to live under the authority of male relatives.

A seminar on "Agricultural crisis in India- A case study"

Date- 23.08.2018

Venue- Hall No 14

Derabis Degree College, Derabish, Kendrapara.

About the College:

Each and every institution has its own history. The history of Derabis College dates back to the year 1981 when some enlightened minds of this locality thought about the setting up a College in such a remote and underdeveloped area like Derabis with a mission and vision of providing a sphere of higher education. Their idea of establishing a centre of higher education has been a magical spirit for the then enterprising locals.Location of the College is quite convenient. Situated at the heart of Derabish, it is 03Kms away from Chhata Chhak on NH-5(A), 07Kms from Cuttack Chandabali Road, 70Kms from Cuttack via Chandikhol and 55Kms from Cuttack via Salepur.

Mission and Vision:

To provide education in the best possible form for the students to be with all round personality development leading to a prosperous career with high sense of academic excellence.

To expand education and dissemination of knowledge to the denied and underprivileged sections of men and women in the Society. To imbibe scientific temperament with human values I the minds, for the upliftment of men and women. To inculcate the spirit of consciousness with regards to the constitutional rights and lead them to the interest of the Nationâ€™s mainstream. The institutional logo comprises of three distinct dynamic features such as the temple, the burning lamp and the open book. It symbolizes that the College aims at imparting knowledge by dispelling darkness in a continuous process keeping in view of the glorious past, the dynamic present and the prosperous future.

The objective of the seminar:

The agricultural crisis in India stems from various socio-economic, environmental, and policy-related factors, severely impacting farmers and rural economies. This study analyzes these causes, evaluates current policies, and proposes sustainable solutions.

5.Brief introduction of the Resource person-

Dr. Minaketan Behera, the professor and chairperson, Centre for informed sector and Labour studies, school of social science, Jawaharlal Nehru University. He has vast experience in Research . He has published several publication in national and international journals.

6. Report on the Event-

A departmental seminar on " Agricultural crisis in India- A case study " was organised by the Department of Economics on 23.08.2018 in Hall no-14, Derabis, college, Derabis. Dr. Minaketan Behera was the resource person of the seminar .He has discussed agriculture in India is undergoing a structural change leading to crisis situation . The rate of growth of agricultural output is gradually declining in the recent years. The relative contribution of agriculture to GDP has been declining over time steadily. The performance of agriculture by crop categories also clearly indicate the slowing down process of agriculture in India.The seminar was presiding over by the Mr. C Kar , principal in Charge. Mr Sanjay Kumar Mishra HOD economics was the main brain of this seminar .At the end Sanjukta Sethi, lecturer in economics extended vote of thanks to all distinguished, dignitaries and students . The seminar has benefited to the students , staff and faculty members in many ways.

Economics Department
Seminar Resolution

Meeting - 3

Dt. 03.08.2018

A meeting of Economics Department was held on dt. ~~23~~ 03.08.2018 in the Principal office. Mr. C. Kar, Principal presided over the meeting in the presence of the Dept. staff and students. The following decisions were taken unanimously.

1- It was decided to organise a seminar on dt. 23.08.2018 Positively.

2- It was decided the topic of the seminar will be "Agricultural Crisis in India" - A case study study and dignitary is to be invited to attend as resource person is Dr. Minaketan Behera, Associate prof. JNU, New Delhi

3- Mr. Sanjay ku. Mishra, HOD. Economics shall act as Convenor and Mrs Sanjukta Sethi as co-Convenor of the seminar and H.OD Economics was authorised to withdraw the needed amount after submission of vouchen.

4 The meeting ended with vote of thanks to the members present and the president.

AGRICULTURAL CRISIS IN INDIA - A CASE STUDY

Abstract:

Agricultue in India is undergoing a structural change leading to a crisis situation. The rate of growth of agricultural output is gradually declining in the recent years. The relative contribution of agriculture to the GDP has been declining over time steadily. It means that the income derived from these activities is not sufficient enough to meet the expenditure of the cultivators. And therefore, unless agriculture is made a profitable enterprise, the present crisis cannot be solved. The related factors responsible for the crisis include: dependence on rainfall and climate, liberal import of agricultural products, reduction in agricultural subsidies, lack of easy credit to agriculture and dependence on money lenders, decline in government investment in the agricultural sector and conversion of agricultural land for alternative uses. It is argued that the consequence of agricultural crisis in India is very vast and likely to hit all the other sectors and the national economy in several ways. In specific, it has adverse effects on food supply, prices of foodgrains, cost of living, health and nutrition, poverty, employment, labour market, land loss from agriculture and foreign exchange earnings. The only remedy to the crisis is to do all that is possible to make agriculture a profitable enterprise and attract the farmers to continue the crop production activities. As an effort towards this direction, the government should augment its investment and expenditure in the farm sector. Investment in agriculture and its allied sectors, including irrigation, transport, communication, rural market, rural infrastructure and farm research, should be drastically increased, and the government should aim at integrated development of the rural areas. The solution of the problem is not in a few "packages" but in drastic changes in the present economic policies related to agriculture. All farmers, agricultural labourers, societies, Government and People's Organisations should work collectively to revive agriculture and "Save India from Agriculture Crisis".

Allian gene transfer in Rice

Date-27.02.18

Venue-Derabis Degree College, Derabish, Kendrapara.

About the College:

Each and every institution has its own history. The history of **Derabis College** dates back to the year 1981 when some enlightened minds of this locality thought about the setting up a College in such a remote and underdeveloped area like Derabis with a mission and vision of providing a sphere of higher education. Their idea of establishing a centre of higher education has been a magical spirit for the then enterprising locals.Location of the College is quite convenient. Situated at the heart of Derabish, it is 03Kms away from Chhata Chhak on NH-5(A), 07Kms from Cuttack Chandabali Road, 70Kms from Cuttack via Chandikhol and 55Kms from Cuttack via Salepur.

Mission and Vision

To provide education in the best possible form for the students to be with all round personality development leading to a prosperous career with high sense of academic excellence.

To expand education and dissemination of knowledge to the denied and underprivileged sections of men and women in the Society.

To imbibe scientific temperament with human values I the minds, for the upliftment of men and women.

To inculcate the spirit of consciousness with regards to the constitutional rights and lead them to the interest of the Nationâ€™s mainstream.

The institutional logo comprises of three distinct dynamic features such as the temple, the burning lamp and the open book. It symbolizes that the College aims at imparting knowledge by dispelling darkness in a continuous process keeping in view of the glorious past, the dynamic present and the prosperous full

SEMINAR REPORT

DERABISH COLLEGE
ESTD-1981
DERABISH, KEONJHAR

Brief Report on the Event :

A seminar on "Allian Gene Transfer in Rice" was organised by the Department of Botany, Dr. Lotan ku. Bose delivered the talk as a resource person on the topic.

Rice productivity is affected by several abiotic and biotic stresses. The genetic variability for some of these stresses is limited in the Cultivated Rice germplasm. Moreover, changes in insect biotypes and disease races are a continuing threat to increased rice production. There is thus an urgent need to broaden the rice gene pool by introgressing genes for such traits from diverse sources.

The Seminar was presided over by Principal the HOD of the dept. Spoke upon the relevance of conducting seminar on such a prominent topic.

At the end, Mr. Sourav Chand, Lect. In Botany proposed vote of thanks to the students, staffs and faculty members of the college in many ways.

Alien Gene Transfer: Challenges and Opportunities

DERABISH COLLEGE ESTD-1981 DATE..... DERABISH, KENDRAPARA

ABSTRACT

Abstract Alien genes have contributed several traits in the crop plants which are not available in the cultivated background. These have helped plant breeders in creating newer genetic diversity, thereby providing additional avenues of selection of better plant types. Vertical and horizontal transfer of alien genes has changed the fate of several crops by imparting resistance to diseases and insect-pests, tolerance to abiotic stresses such as salinity, water stress, high temperature, etc. as well improving quality. However, alien gene transfer is always not so easy and smooth as it appears from the successful examples of such transfers with massive effects in some crops, especially cereals. Several challenges such as pre- and post fertilization barriers in distant crosses, problems in normal chromosome pairing, linkage drag, pleiotropic effects and role of recipient genome background on the expression of introgressed alien gene(s) in HGT and erratic regeneration protocols, difficulty in isolation of genes from wild species and their expression in recipient plants, and possibilities of gene flow from cultivated to wild types pose significant challenges to make alien gene transfer a routine process across all crop species. Nevertheless, refinements in various gene transfer technologies have led to generation of tremendous opportunities which provide newer means to obtain successful alien gene transfer in even those species which were earlier considered to be either recalcitrant to tissue culture or were considered as difficult. This chapter discusses in detail various challenges and opportunities associated with alien gene transfer in crop plants.

Keywords AB-QTL • Cisgenesis • Gene flow • Gene silencing • Intragenesis • Linkage drag • Pleiotropic effects • Reciprocal crossing

06. Brief report of the event: -

A Departmental seminar on "**Biodiversity and its conservation**" was organized by the Department of Zoology, Derabis College, Derabis on 21/09/18 in hall no.14. Mr. Chaturbhuja Kar, the esteemed principal Of Derabis College, was the chief guest of the seminar. He has discussed the topic of biodiversity and its function in ecosystem management, clean air and water, plant pollination, pest control, and wastewater treatment. The eminent resource Person Dr. Bhagirathi Majhi, talked about the importance of biodiversity that protects against climate change, ensures good security, and about its economic benefits. The seminar was guided by Dr. Chaturbhuja Kar, principal, of Derabis College, Derabis. Mr. Ardhendu Sekhar Mallick, Head of the Department of Zoology, spoke about the relevance of conducting a seminar on such an important topic. Later the students of zoology honors presented their seminar talk on biological diversity, including its role in food, nutrition security, energy, development of medicines and pharmaceuticals fresh water, together with good health. At the end, the co-organizer of the seminar proposed a vote of thanks to the gathering. The seminar was knowledgeable to the students, staff and faculty members of the college in many ways.

ABSTRACT

Biodiversity the variety of life forms in an ecosystem, is essential for the health and stability of the planet. It includes the diversity of genetic variation within the species and the variety of ecosystems that host complex interactions between organisms and their environment. Biodiversity provides critical ecosystem services such as pollination, nutrient cycling, soil formation, and climate regulation, which support human well-being and sustainable development. Biodiversity is under significant threat from human activities such as habitat destruction, pollination, over-exploitation, and climate change, leading to the loss of species and genetic diversity. To preserve biodiversity, conservation efforts must focus on protecting habitats, restoring degraded ecosystems, and promoting sustainable practices across industries.

A Seminar on

"Problems that earth's atmosphere faces"

And other events

Date- 7/11/2018

Venue-Derabis Degree College, Derabish, Kendrapara.

About the College:

Each and every institution has its own history. The history of **Derabis College** dates back to the year 1981 when some enlightened minds of this locality thought about the setting up a College in such a remote and underdeveloped area like Derabis with a mission and vision of providing a sphere of higher education. Their idea of establishing a centre of higher education has been a magical spirit for the then enterprising locals.Location of the College is quite convenient. Situated at the heart of Derabish, it is 03Kms away from Chhata Chhak on NH-5(A), 07Kms from Cuttack Chandabali Road, 70Kms from Cuttack via Chandikhol and 55Kms from Cuttack via Salepur.

Mission and Vision

To provide education in the best possible form for the students to be with all round personality development leading to a prosperous career with high sense of academic excellence.

To expand education and dissemination of knowledge to the denied and underprivileged sections of men and women in the Society.

To imbibe scientific temperament with human values I the minds, for the upliftment of men and women.

To inculcate the spirit of consciousness with regards to the constitutional rights and lead them to the interest of the National mainstream.

The institutional logo comprises of three distinct dynamic features such as the temple, the burning lamp and the open book. It symbolizes that the College aims at imparting knowledge by dispelling darkness in a continuous process keeping in view of the glorious past, the dynamic present and the prosperous future.

About the place (Kendrapara):

Kendrapara District is an administrative district Odisha state in eastern India. The town of Kendrapara is the district headquarters.**Derabis College** is just 7 kilometers from Kedrapara town.,Kendrapara District is well known as the Tulasi Khetra. Epics unveil the fact that Lord Balram killed Kandrasura here. Then he married his daughter Tulasi and settled here. Since then the place is known as Kendrapara.

The objective of the Seminar is likely:

1. To mitigate green house gas emissions.
2. To control air pollution, acid rain and depletion of ozone layer

DATE.....

Meeting-01 Dt - 12.10.2018

A meeting of the Dept. of physics was held at the office of the Principal on 12/10/2018 at 11 AM, under the Chairmanship of the Principal, student representatives and departmental staffs discussion regarding organisation of a seminar and the following discussions were taken unanimously.

01. It is decided to organise a seminar on 07.11.2018 at 10.30AM in Hall No 14 positively.

02. It is further decided to request Prof. Biswaranjan Puhan, Reader in physics, Kendrapada Auto. college, Kendrapara, odisha to attend as Resource Person.

03. It is decided the Topic of the seminar will be "Problems that the earth's atmosphere faces".

04. It is also decided Mr. Ashoke Kumar Prusty, Reader in physics shall be convenor of the seminar. Students are advised to co-operate for the succes of the seminar.

05. The meeting ended with a vote of thanks to the chair and the members present.

Seminar-Report

Name of the Department - PHYSICS

1. Seminar held on- 07/11/2018
2. Name of the topic- Problems that earth's atmosphere faces
3. Name of the resource person- Prof. Biswaranjan puhan
4. Name / No of the students present the paper- 1. Prakash kumar Mallik 2. Barsa Sutar, 3. Pujarani Dey 4. Silpadas, 5. Jayashree Nayak 6. Sambit swain.
5. No of the students presents- 48
6. Abstract of the paper-

The Earth's atmosphere, vital for sustaining life as we know it, faces a myriad of interconnected problems driven primarily by human activities. One of the most pressing issues is climate change, primarily induced by the accumulation of greenhouse gases such as carbon dioxide, methane, and nitrous oxide. These gases trap heat within the atmosphere, leading to global warming, altered weather patterns, rising sea levels, and increased frequency of extreme weather events.

Another significant challenge is air pollution, resulting from industrial activities, vehicle emissions, and agricultural practices. Pollutants such as particulate matter, nitrogen oxides, sulfur dioxide, and volatile organic compounds degrade air quality, posing serious health risks to humans, animals, and ecosystems. Ground-level ozone, a key component of smog, further exacerbates respiratory problems and damages crops.

The depletion of the ozone layer represents yet another critical issue. Human-made substances like chlorofluorocarbons (CFCs) and halons release chlorine and bromine atoms, which catalytically destroy ozone molecules in the stratosphere. This depletion allows harmful ultraviolet (UV) radiation to penetrate the atmosphere, increasing the incidence of skin cancer, cataracts, and disruptions to marine ecosystems.

Additionally, the Earth's atmosphere faces challenges related to deforestation and land-use changes, which impact the balance of carbon dioxide and oxygen, disrupt ecosystems, and contribute to biodiversity loss. Acid rain, caused by emissions of sulfur dioxide and nitrogen oxides reacting with atmospheric moisture, damages forests, soils, and aquatic habitats.

Addressing these atmospheric problems requires coordinated international efforts, policy interventions, technological innovations, and changes in individual behavior. Transitioning to renewable energy sources, enhancing energy efficiency, adopting sustainable land-use practices, and promoting cleaner transportation are crucial steps toward mitigating these challenges and safeguarding the health and stability of our planet's atmosphere for future generations.

A seminar on " Impact of GST on the economy"

Date-15.11.2018

Venue – Hall No – 14 Derabis college, Derabis, Kendrapara.

About the College:

Each and every institution has its own history. The history of Derabis College dates back to the year 1981 when some enlightened minds of this locality thought about the setting up a College in such a remote and underdeveloped area like Derabis with a mission and vision of providing a sphere of higher education. Their idea of establishing a centre of higher education has been a magical spirit for the then enterprising locals.Location of the College is quite convenient. Situated at the heart of Derabish, it is 03Kms away from Chhata Chhak on NH-5(A), 07Kms from Cuttack Chandabali Road, 70Kms from Cuttack via Chandikhol and 55Kms from Cuttack via Salepur.

Mission and Vision:

To provide education in the best possible form for the students to be with all round personality development leading to a prosperous career with high sense of academic excellence.

To expand education and dissemination of knowledge to the denied and underprivileged sections of men and women in the Society. To imbibe scientific temperament with human values I the minds, for the upliftment of men and women. To inculcate the spirit of consciousness with regards to the constitutional rights and lead them to the interest of the Nationâ€™s mainstream. The institutional logo comprises of three distinct dynamic features such as the temple, the burning lamp and the open book. It symbolizes that the College aims at imparting knowledge by dispelling darkness in a continuous process keeping in view of the glorious past, the dynamic present and the prosperous future.

The objective of the seminar: To analyze the effects of Goods and Services Tax (GST) on India's economy, focusing on revenue generation, tax compliance, and economic growth. To evaluate how GST has impacted different sectors and propose improvements for its implementation.

3. Date- 15.11.2018

4.Venue – Hall No – 14

Derabis college, Derabis

5. Brief introduction of the resource person

Dr. K .K. Bej Head of the Department of Economics L.N. College, korua . He has vast teaching experience and published national level journals. He is a good academician.

6.Report on the event-

A departmental seminar on "Impact of GST on Economy" was organised by department of economics on 02.11.2018 in Department of Economics, Derabis college, Derabis. Dr. K.K. Bej was the resource person of the seminar. He has discussed How GST will benefit the sector by ensuring a broad tax space with minimal exclusion and also Indian economy will gain from it in numerous ways ,Including lower consumer price , a unified tax rate and less levies. The seminar was presided over by the Mr Chaturbhuj kar principal -in-charge. Mr Sanjay Kumar Mishra HOD of economics was the main brain of this seminar . At the end Sanjukta Shethi lecture in economics extended vote of thanks all distinguished dignitaries and students . The seminar has benefited to the students, staff and faculty members of the College in many ways.

IMPACT OF GST ON THE ECONOMY

Abstract:

Before 2017, the people of India used to pay several indirect taxes for every transaction, such as purchasing, selling, manufacturing, retailing, marketing, etc, in the form of Value Added Tax (VAT), excise duty, service tax, central sales tax, entertainment tax, luxury tax, sales tax, etc. Former Union Finance Minister, P. Chidambaram, in his budget speech for 2006-07 broached the concept of 'Goods and Service Tax' (GST). On 29th March 2017, the GST Bill was passed by both houses of the parliament, followed by which on 1st July, 2017, the same had come into effect. GST is a single indirect tax proposed to replace all other indirect taxes, thereby reducing the burden of paying different indirect taxes. The introduction of GST facilitated the elimination of the cascading effect of indirect taxation and the concept of double taxation, thereby introducing a uniform regime governing indirect taxation in India. GST has been responsible for pushing the economy a step closer to a common market that involves the free movement of capital and services, making room for doing business in an easier way. This article aims to provide insight as to how GST has had an impact on the Indian economy and deliberates upon the need to revise GST rates and amendments that need to be made.

THE IMPORTANCE OF ECONOMIC EDUCATION: PREPARING FUTURE GENERATIONS FOR GLOBAL ECONOMIC CHALLENGES

Abstract

Economic education has a central role in equipping future generations with a solid understanding of basic economic concepts and the skills needed to face global economic challenges. This abstract summarizes the results of discussions that highlight crucial aspects of economic education, including its role in improving understanding of economic concepts, preparation for global challenges, and development of critical and analytical skills. Discussions also include the linkage of research results to educational policy, a focus on developing ethical attitudes and social responsibility, and how economic education stimulates global collaboration and entrepreneurship. In conclusion, economic education not only provides conceptual knowledge but also forms the attitudes and skills needed to participate actively in the growing global economy. Economic education is an important key in equipping them with the knowledge and skills needed. This article aims to examine the importance of economic education in preparing the younger generation to face global economic challenges. This research uses qualitative methods with literature studies. Data was collected from various trusted sources such as scientific journals, books and online articles. Economic education has an important role in preparing the younger generation to face global economic challenges. This education can equip them with knowledge of economic concepts, the global economic system, and the skills needed to work in the era of globalization. Economic education must be a top priority in the education of the younger generation. Governments, schools and parents need to work together to improve the quality of economic education and ensure that all young people have equal access to this education.

DERABISH::KENDRAPARA

A SEMINAR ON

"LOKA GEETARE KAANDANA".

DATE- 17/12/2018.

Venue-Derabis College, Derabish, Kendrapara.

About the College:

Each and every institution has its own history. The history of **Derabis College** dates back to the year 1981 when some enlightened minds of this locality thought about the setting up a college in such a remote and underdeveloped area like Derabis with a mission and vision of providing a sphere of higher education. Their idea of establishing a centre of higher education has been a magical spirit for the then enterprising locals.Location of the College is quite convenient. Situated at the heart of Derabish, it is 03Kms away from Chhata Chhak on NH-5(A), 07Kms from Cuttack Chandabali Road, 70Kms from Cuttack via Chandikhol and 55Kms from Cuttack via Salepur.

Mission and Vision

- To provide education in the best possible form for the students to be with all round personality development leading to a prosperous career with high sense of academic excellence.
- To expand education and dissemination of knowledge to the denied and underprivileged sections of men and women in the Society.
- To imbibe scientific temperament with human values I the minds, for the upliftment of men and women.
- To inculcate the spirit of consciousness with regards to the constitutional rights and lead them to the interest of the National mainstream.
- The institutional logo comprises of three distinct dynamic features such as the temple, the burning lamp and the open book. It symbolizes that the College aims at imparting knowledge by dispelling darkness in a continuous process keeping in view of the glorious past, the dynamic present and the prosperous future.

The objective of the Seminar is likely:

1. To discuss and compare traditional folk song ,folk culture,proverbs with modern literature.
2. To discuss about the impact of traditional folk songs in todays society.

About the College:

Each and every institution has its own history. The history of **Derabis College** dates back to the year 1981 when some enlightened minds of this locality thought about the setting up a college in such a remote and underdeveloped area like Derabis with a mission and vision of providing a sphere of higher education. Their idea of establishing a centre of higher education has been a magical spirit for the then enterprising locals.Location of the College is quite convenient. Situated at the heart of Derabish, it is 03Kms away from Chhata Chhak on NH-5(A), 07Kms from Cuttack Chandabali Road, 70Kms from Cuttack via Chandikhol and 55Kms from Cuttack via Salepur.

Mission and Vision

- To provide education in the best possible form for the students to be with all round personality development leading to a prosperous career with high sense of academic excellence.
- To expand education and dissemination of knowledge to the denied and underprivileged sections of men and women in the Society.
- To imbibe scientific temperament with human values I the minds, for the upliftment of men and women.
- To inculcate the spirit of consciousness with regards to the constitutional rights and lead them to the interest of the National mainstream.
- The institutional logo comprises of three distinct dynamic features such as the temple, the burning lamp and the open book. It symbolizes that the College aims at imparting knowledge by dispelling darkness in a continuous process keeping in view of the glorious past, the dynamic present and the prosperous future.

The objective of the Seminar is likely:

1. To discuss about the conditions that threatens the secular ethos of our country
2. To discuss about the roadmap for strengthening institutions that will strengthen secularism India

Seminar Report:

Date: 13.12.2018

A Dept. level Seminar was organised in the Dept. of Pol.Sc on DT. 13.12.2018 at 11.00 A.M.

Topic of the Seminar: " Secularism in India".

Inauguration of the Seminar by Mr. Chaturbhuja Kar, The Hon'ble Principal of the Derabis College, Derabish

Coordinator of the Seminar: Santanu Kumar Mati, HOD, Pol.Sc .

Resource Person of the Event: Prof. Nandakisore Parida, Reader.in Pol.Sc and Former Principal of Kendrapara Autonomous College, Kendrapara.

The seminar was inaugurated by the chief guest Mr. Chaturbhuja Kar, Principal of the college. Welcome address delivered by Mr. Santanu Kumar Mati, HOD. of Department of Pol.Sc. Then the resource perperson Prof. Nandakisore Parida delivered his speech on the topic. He put his ideas and thoughts on seculaism in India clearly before the students. He expressed in a democratic state like India in which secularism is an important issue that flourishes our system of regime. Secularism helps to grow fraternity and harmony among the different communities. He told in his speech secularism is a unique feature of our constitution and set up a neutral shape of our country in case of religion. The chief guest, our beloved principal put his views before the students regarding the relevance of Secularism in our country. Mr. Santanu Kumar Mati, Mr. Brundaban Das, and Dr. Sandeep Kumar Bal presented their views on the topic. More than 30 students participated in seminar discussion.

The Seminar was over with the vote of thanks by Sandeep Bal to the members present.

Topic of the Seminar: " Secularism in India "

Date: 13.12.2018

ABSTRACT

India is a Secular State. The term ' secularism ' was introduced in the year 1976 of the 42nd Amendment of the constitution. Secularism means not to promote or support a particular religion in a country. Our country can't patronise any religion and we have no national religion. All the religions in India are equal. A person is said to be secular when his thinking is rational and based on science. It simply means that the separation of state from religion. State will treat all the religions equal. Secularism in India important not only to provide peace and harmony within the cou try but also to provide a better and safer society to all. Still then secularism in India faces a number of challenges. Though India is a culturally heterogeneous, the enmity between Muslims and Hindus are seen in most of the time. These poisonous feelings were created by Britishers. Our constitution and judicial system keep vigilant eyes on this issue how such enmity will be checked.

SWACHH BHARAT ABHIYAN

DERABISH COLLEGE ★ ESTD-1981 ★ DERABISH NENDRAPARA DATE.....

Abstract:

According to the statistics, it has seen that only few percentage of total population have access to the toilets. It is a programmer run by the government to seriously work to fulfill the vision of Father of Nation (Bapu) by calling the people from all walks of life to make it successful globally. Swachh Bharat Abhiyan is a national cleanliness campaign established by the Government of India. This campaign is covering 4041 statutory towns in order to clean roads, streets, and infrastructure of the India. It is a mass movement has run to create a Clean India by 2019. It is a step ahead to the Mahatma Gandhi's dream of Swachh Bharat for healthy and prosperous life. This mission was launched on 2nd of October 2014 (145th birth anniversary of Bapu) by targeting its completeness in 2019 on 150th birth anniversary of Bapu. The mission has been implemented to cover all the rural and urban areas of the India under the Ministry of Urban Development and the Ministry of Drinking Water and Sanitation accordingly the first cleanliness drive (on 25th of September 2014) of this mission was started by the Indian Prime Minister, Narendra Modi earlier to its launch. This mission has targeted to solve the sanitation problems as well as better waste management all over the India by creating sanitation facilities to all. Swachh Bharat mission is very necessary to run continuously in India until it gets its goal. It is very essential for the people in India to really get the feeling of physical, mental, social and intellectual well-being. It is to make living status advance in India in real means which can be started by bringing all over cleanliness. Below I have mentioned some points proving the urgent need of Swachh Bharat Abhiyan in India

A Seminar on

"Fundamental of atomic structure"

And other events

Date- 11/1/2019

Venue- Derabis Degree College, Derabish, Kendrapara.

About the College:

Each and every institution has its own history. The history of **Derabis College** dates back to the year 1981 when some enlightened minds of this locality thought about the setting up a College in such a remote and underdeveloped area like Derabis with a mission and vision of providing a sphere of higher education. Their idea of establishing a centre of higher education has been a magical spirit for the then enterprising locals.Location of the College is quite convenient. Situated at the heart of Derabish, it is 03Kms away from Chhata Chhak on NH-5(A), 07Kms from Cuttack Chandabali Road, 70Kms from Cuttack via Chandikhol and 55Kms from Cuttack via Salepur.

Mission and Vision

To provide education in the best possible form for the students to be with all round personality development leading to a prosperous career with high sense of academic excellence.

To expand education and dissemination of knowledge to the denied and underprivileged sections of men and women in the Society.

To imbibe scientific temperament with human values I the minds, for the upliftment of men and women.

To inculcate the spirit of consciousness with regards to the constitutional rights and lead them to the interest of the National mainstream.

The institutional logo comprises of three distinct dynamic features such as the temple, the burning lamp and the open book. It symbolizes that the College aims at imparting knowledge by dispelling darkness in a continuous process keeping in view of the glorious past, the dynamic present and the prosperous future.

Scanned with OKEN Scanner

About the place (Kendrapara):

Kendrapara District is an administrative district Odisha state in eastern India. The town of Kendrapara is the district headquarters.**Derabis College** is just 7 kilometers from Kedrapara town.,Kendrapara District is well known as the Tulasi Khetra. Epics unveil the fact that Lord Balram killed Kandrasura here. Then he married his daughter Tulasi and settled here. Since then the place is known as Kendrapara.

The objective of the Seminar is likely:

1. To describe the three subatomic particles in an atom.
2. To understand atomic structures is fundamental to all aspects of chemistry as it provides a foundation for understanding chemical reactions, properties of elements and the behaviour of matter.

Chairperson- Mr. Chaturbhuja Kar

Convener- Mr. Aswini Kumar Prusty

Resource Person- Ipsita Samal (Sr. Lecturer in Electronics and Telecommunication, Nigam College of Engineering and Technology, Bhubaneswar)

Department of Physics
Seminar Resolution

DERABISH COLLEGE ★ DERABISH KENDRAPARA ★ ESTD-1981 DATE.....

Meeting - 02 Dt - 03/01/2019

A meeting of the Dept. of physics was held on date 03/01/2019 at 11AM in the principal office. principal presided over the meeting in the presence of department staffs and student representative regarding organisation of a seminar and the following decisions were taken unanimously.

01 It is decided to organise a seminar on dt. 11-01-2019 at 10:30AM in Hall 14 positively.

02 It is decided to request Prof Ipsita samal, NIGAM Institute of Engineering and Technology, BBSR, Odisha to attend as Resource person.

03 It is decided the topic of the seminar will be "fundamental of atomic structure".

04 It is also decided Mr. Aswini Kumar prusty, Reader physics shall be convenor of the seminar. Students are advised to co-operate for the suiess of the seminar.

05 In the end, principal extended vote of thanks to the members presents and declared the meeting over.

No. 2(A)

Date 07.01.2019

To

Prof. Ipsita Samal
NIGAM Institution of Engineering and Technology
Bhubaneswer, Odisha

Sir,

Department of physics of our college is going to organize a seminar/extramural lecture/workshop on Fundamentals of Atomic Structure Dtd. 11.01.2019 at 10.00 A.M.

So, you are requested to attend the seminar/extramural lecture/workshop as a resource person to grace occasion.

Yours faithfully,

Name of the Department –PHYSICS

1. Seminar held on- 11.01.2019
2. Name of the topic- Fundamentals of atomic structure
3. Name of the resource person- Prof. Ipsita. Jamal
4. Name/No of the students present the paper- 1- prakas kumar. Malik
   2- Pujarani Das
   3- Swoprarani Rout
   4- Silpa Das
   5- Sangram padh
5. No of Students Present- 51
6. Abstract of the paper-

Atomic structure forms the bedrock of mode physics, serving as the foundation upon which our understanding of matter and energy is built. This discussion delves into the intricacies of atomic structure, beginning with the ploneering work of early scientists such as democritus and Dalton, who proposed the existence of Indivisible particles known as atoms. It then transitions to the revolutionary discoveries of the late 19th and early 20th centuries, including Thomson's identities of the electron and Rutherford's elucidation of the atomic nucleus. The development of quantum mechanics further refined our comprehension of atomic behavior, introducing concepts such as abitals, electro configuration, and quantum numbers. Moreover, advancements in experimental techniques, such as x-ray crystallography and spectrasapy have provided invaluable insights into atomic arrcangement and properties. This abstract concludes by highlighting the contemporary relevance of atomic stracture, as it underlines various scientific disciplines, including chemistry, material.

DEPARTMENTAL SEMINAR –

1. **TITLE OF THE SEMINAR**- AGRICULTURE IN ODISHA DURING PRE BRITISH PERIOD
2. **ORGANISER**- DEPARTMENT OF HISTORY
3. **DATE**-14.02.2019
4. **VENUE**- DEPT OF HISTORY, DERABIS COLLEGE, DERABISH
5. BRIEF INTRODUCTION OF THE RESOURCE PERSON

Dr Bishnu Charan Biswal, Reader in History Birupa College Indupur, Kendrapara attended the seminar as resource person and thoroughly discuued about the topic.

BRIEF REPORT ON THE SEMINAR-

A seminar on AGRICULTURE IN ODISHA DURING PRE BRITISH PERIOD organized by the Dept of History on dated 14.02.2019. Dr Bishnu Charan Biswal, Reader in History Birupa College Indupur, Kendrapara attended the seminar as resource person and discussed about Agricultural technologies remained primitive with no efforts to improve conditions from the British side. Even after the introduction of fertilizer technology farmers used natural manure, which resulted in low yields. This coupled with lack of proper irrigation facilities aggravated the misery. Odisha is one of the largest producers of rice in India. The other crops cultivated are: jute, oil seeds, pulses, coconut, mesta, sugarcane, tea, rubber, cotton, gram, mustard, maize, sesame, ragi, potato, and soybean. Cuttack, Dhenkanal, Baleshwar and Sambalpur are the major agricultural hubs of the state. he British encouraged Indian farmers to grow cash crops like cotton, jute, wheat, indigo and opium, which were in high demand in Britain. Traditional crops were neglected, forcing farmers to grow more commercial crops. This led to the commercialization of agriculture during British rule. Sri Nagendranath Pani, HOD of the Department thoroughly describe about the topic and finally . Rudrangi Pattanaik Lecturer in History extended the vote of thanks.

ABSTRACT:

The pre-colonial India was primarily producing two crops– rice and wheat. Despite this, it was self-sufficient and sustainable. The incidence of colonization forced changes in the agricultural sector such as commercialization. As per latest available es mates for 2017-18, 48.8% of worker popula on in the State is engaged in the agriculture sector. The State has total geographical area of 155.71 lakh hectares of which total cultivated land is about 61.80 lakh hectares which cons tutes about 39.69% of the total geographical area of the State. The pre-colonised India produced primarily two crops, i.e. wheat and rice. Even if it was only two types of crops, the country's agricultural sector was sustainable and self-sufficient. The British invasion resulted in total commercialisation of India's agriculture industry. Under British colonial rule, agriculture was a major source of livelihood for more than two-thirds of the economically active population in South Asia. However, growth rates in agriculture were stagnant and inequality in the region increased, a trend that continued well after 1947. Colonial farming: 1610–1775. Beginning in 1620, the first settlers in Plymouth Colony planted barley and peas from England but their most important crop was Indian corn (maize) which they were shown how to cultivate by the native Squanto. To fertilize this crop, they used small fish which they called herrings or shads. Shifting cultivation is known as Jhum or Jum in the hilly states of Northeast India, as Podu, Dabi, Koman or Bringa in Orissa, as Kumari in Western Ghats, as Watra in southeast Rajasthan, as Penda, Bewar or Dahia and Deppa or Kumari in the Bastar district of Madhya Pradesh.

SEMINAR REPORT

Brief Report on the Event:

A Seminar on "Effects of Soil Degradation On Crop Production" was organised by Department of Botany, Dr. Anjali Dash, Reader in Botany delivered the talk as Resource Person that when soil erodes, erosion can reduce crop yields by removing nutrients, organic matter and a top soil. Soil erosion remove top soil with associated nutrients and organic matter resulting in a reduced crop yields.

The Seminar was presided over by Dr. Debabrata Nayak, Principal. The HOD of the Department spoke upon the relevance of conducting Seminar on such a prominent topic.

At the end Mr. Sourav Chand, Lecture in Botany proposed vote of thanks to the gathering. The Seminar has benefited the students, staff and faculty members of the college in many ways.

EFFECTS OF SOIL EROSION ON AGRICULTURAL PRODUCTIVITY IN SEMI-ARID REGIONS : THE CASE OF LOWER CHAMBAL VALLEY

DERABISH COLLEGE
ESTD-1981
DATE
DERABISH, KENDRAPARA

ABSTRACT

Soil erosion is a world-wide challenge for sustainability of agriculture especially in the tropical region. The rates of soil erosion that exceed the generation of new topsoil are a dynamic process which leads to decline in the soil productivity, low agricultural yield and income. The balance between soil-forming and depleting processes is of utmost importance for attaining long-term sustainability in any production system. Land degradation in the form of soil erosion is a major problem in the semi-arid region of Lower Chambal Valley. In the present study Landsat satellite images for the years of 1977, 1990 and 2000 have been used to identify the change in degraded land in the region. Evidences suggest that the rate of encroachment of arable land is high and is equal to spreading rate of degraded land. The data obtained by field survey reveal that productivity of crop land is negatively correlated with share of degraded land to gross cropped area. The productivity of agriculture, measured through gross value of output per area, is comparatively high in villages having fewer shares of degraded land and vice-versa. Simple linear regression model explains high variation of productivity by high share of degraded land (above 50 per cent of gross cropped area). This paper provides evidences of the severity of land degradation and its close association with agricultural production of the region.

Introduction

Soil erosion is a world-wide challenge for sustainability of agriculture especially in tropical region. It is the process of detachment and transport of soil particles. Erosion can decrease rooting depth, soil fertility, organic matter in the soil and plant available water reserves (Lal, 1987). The rates of soil erosion that exceed the generation of new topsoil are a dynamic process which may lead to a decline of soil productivity, and result in lower agricultural yield and income, at least in the long run. The balance between soil-forming and depleting processes is of utmost importance for attaining long-term sustainability in any production system. Soil being a non-renewable resource and the basis for 97 per cent of all food production (Pimentel, 1993), strategies to prevent soil depletion are critical for sustainable development. For developing suitable soil conservation strategies, knowledge of the prevailing and permissible rates of soil erosion is an essential pre-requisite. In order to adequately understand the complex issues

DEPARTMENT OF PHYSICS BROCHURE

A Seminar on

"Nanotechnology"

And other events

Date: 20/3/2019

Venue- Derabis Degree College, Derabish, Kendrapara.

About the College:

Each and every institution has its own history. The history of **Derabis College** dates back to the year 1981 when some enlightened minds of this locality thought about the setting up a College in such a remote and underdeveloped area like Derabis with a mission and vision of providing a sphere of higher education. Their idea of establishing a centre of higher education has been a magical spirit for the then enterprising locals.Location of the College is quite convenient. Situated at the heart of Derabish, it is 03Kms away from Chhata Chhak on NH-5(A), 07Kms from Cuttack Chandabali Road, 70Kms from Cuttack via Chandikhol and 55Kms from Cuttack via Salepur.

Mission and Vision

To provide education in the best possible form for the students to be with all round personality development leading to a prosperous career with high sense of academic excellence.

To expand education and dissemination of knowledge to the denied and underprivileged sections of men and women in the Society.

To imbibe scientific temperament with human values I the minds, for the upliftment of men and women.

To inculcate the spirit of consciousness with regards to the constitutional rights and lead them to the interest of the National mainstream.

The institutional logo comprises of three distinct dynamic features such as the temple, the burning lamp and the open book. It symbolizes that the College aims at imparting knowledge by dispelling darkness in a continuous process keeping in view of the glorious past, the dynamic present and the prosperous future.

Scanned with OKEN Scanner

About the place (Kendrapara):

Kendrapara District is an administrative district Odisha state in eastern India. The town of Kendrapara is the district headquarters.**Derabis College** is just 7 kilometers from Kedrapara town.,Kendrapara District is well known as the Tulasi Khetra. Epics unveil the fact that Lord Balram killed Kandrasura here. Then he married his daughter Tulasi and settled here. Since then the place is known as Kendrapara.

The objective of the Seminar is likely:

1. To provide an overview of fundamental principles and current research directions in nanoscience and nanotechnology.
2. To understand designing, producing and using structures,devices and systems by manipulating atoms and molecules at nanoscale.

Chairperson- Mr. Chaturbhuja Kar

Convener- Mr. Aswini Kumar Prusty

Meeting - 03

Date - 26.02.2019

A meeting of the Dept. of physics was held on date 26/02/2019 at 11 AM in the principal office. Under the chairmanship of the principal, student representatives and departmental staffs discussion regarding organisation of a seminar and the following discussions were taken unanimously.

01. It is decided to organise a seminar on 20/03/2019 at 10.30 AM in Hall 14 positively.

02. It is decided to request Prof. Biswaranjan Puhan, Reader in physics, Kendrapara Auto. college, Kendrapara, odisha to attend as Resource Person.

03. It is decided the Topic of the seminar will be "Nano Technology".

04. It is also decided Mr. Aswini kumar Prusty, Reader in physics shall be Convenor of the seminar. Students are advised to co-operate for the success of the seminar.

05. The meeting ended with a Vote of thanks to the chair and the members present.

Seminal-Report

Name of the Department - PHYSICS

1. Seminar held on- 20.03.2019
2. Name of the topic- Nano Technology
3. Name of the resource person- Prof. Biswaranjan Puhan
4. Name / No of the students present the paper- 1. Silpa Das, 2. Prakash ku. Malik 3. Barsa Sutar, 4. Pabitra ku. Nayak 5. Aiswarya Swain 6. Bishal Pratik Jena 7. Pabitra ku. Sahu
5. No of the students present- 72
6. Abstract of the paper-

Nanotechnology, the manipulation of matter on an atomic and molecular scale, heralds a transformative era across various scientific disciplines and industries. At its core, nanotechnology offers unprecedented control over material properties, enabling the creation of novel structures and functionalities with remarkable precision.

One of the most intriguing aspects of nanotechnology is its interdisciplinary nature. Bridging the realms of physics, chemistry, biology, and engineering, it fosters collaboration among experts from diverse fields. This interdisciplinary approach has fueled breakthroughs in fields as varied as medicine, electronics, energy, and environmental science.

In medicine, nanotechnology holds promise for revolutionizing diagnostics, drug delivery, and therapy. Nanoscale materials and devices can target specific cells or tissues, enhancing the effectiveness of treatments while minimizing side effects. From cancer therapy to regenerative medicine, nanotechnology offers tailored solutions for complex medical challenges.

In electronics, the relentless drive towards miniaturization finds a natural ally in nanotechnology. Nanoscale materials such as carbon nanotubes and quantum dots enable the development of smaller, faster, and more energy-efficient electronic devices. From ultra-high-density storage to flexible displays and wearable electronics, the possibilities are limitless.

Energy is another area where nanotechnology is poised to make a significant impact. Nanomaterials are unlocking new possibilities for energy generation, storage, and conversion. From more efficient solar cells and lightweight batteries to advanced catalysts for fuel cells, nanotechnology promises to drive the transition towards a sustainable energy future.

Environmental applications of nanotechnology range from pollution remediation to water purification and beyond. Nanomaterial-based sensors can detect pollutants at ultra-low concentrations, while nanofiltration membranes offer efficient solutions for clean water access. By harnessing the unique properties of nanomaterials, environmental challenges can be addressed with unprecedented efficiency.

However, along with its immense potential, nanotechnology also raises ethical, societal, and safety concerns. Responsible development and deployment are essential to ensure the benefits of nanotechnology are realized while minimizing risks.

In summary, nanotechnology represents a frontier of scientific exploration with profound implications for society. By harnessing the power of the nanoscale, we have the opportunity to unlock new frontiers of knowledge and innovation, shaping a future where the impossible becomes achievable.

1.Title of the Event-

"Sustainable Development -A challenge to Indian Economy"

2.Organiser-

Department of Economics,

Derabish college, Derabish

3.Date-02.04.2019

4.Venue-Hall No-14 , Derabish college,

Derabish.

5.Brief introduction of the Resource person-

Dr. G Das , Associate prof in Economics Kendrapara Autonomous college Kendrapara attended the seminar as Resource person.He has vast teaching experience and published extensively national and the international level journals . He is a good academician.

6.Brief Report on the event -

A Departmental seminar on "sustainable development -A challenge to Indian Economy "was organised by the Department of Economics on 02.04.2019 in the Department of Economics, Derabish college Derabish. Dr. G Das was the Resource person of the seminar. He has discussed the importance of sustainable economic growth and the development. India is facing many challenges - hunger , unemployment , poverty , malnutrition , inequality and other environmental problems which are the main reasons for fluctuations in the growth rate of India. Mr. Sanjay Kumar Mishra HOD Economics was the main brain of this seminar. In this seminar our students also represent their paper. At the end Sanjukta Sethi, lecture in Economics extend vote of thanks to all distinguished dignitaries and students. The seminar has benefitted the students staff and faculty members of the college in many ways.

Sustainable development-A challenge to Indian economy

DERABISH COLLEGE ★ ESTD 1981 ★ KENDRAPARA

Abstract :

The world economies have unified in their efforts to achieve the goals of sustainable development. This is in sheer contrast to the earlier approaches where governments pursued goals for the growth and development of their respective economies. The struggle for growth and excellence has created imbalance in the economic development among countries,depletedsomeofthenaturalresources has thus altered the ecological balance. The impact of this is being experienced in the form of global warming and climate change. Since this threatens the very existence of humanlifeonearth,acourse of action that would ensure a safe environment for future generations has become the need of the hour. Sustainable development is a term coined to ensure that development takes place in such a way that natural resources are sustained and passed on to the future generations unimpaired.This paper makes an attempt to understand the challenges encountered by India in achieving Sustainable development goals and offers suggestions to overcome them

Seminar Report:

Date: 03.04.2019

A Seminar was organised in the dept. of Pol.Sc on DT. 03.04.19 at 11.00 A.M.

Topic of the Seminar: " Democracy and its Challenges ".

Inauguration of the Seminar by Chaturbhuja Kar, Esteemed Principal of the Derabis College, Derabis

Coordinator of the Seminar: Santanu Kumar Mati, HOD, Pol.Sc.

Resource Person of the Event: Dr. Alok Kumar Ray, Sr. Lect.in Pol.Sc. V.H.J. College, Nikirai , Kendrapara and Chinmay Kumar Pradhan , Lect.in Pol.Sc , Brahmani College , Dandisahi , Kendrapara .

The Seminar was inaugurated by the Chief Guest Chaturbhuja Kar, the Principal of the college, welcome address delivered by Santanu Kumar Mati, HOD of the Pol.Sc . The Resource person, Alok Ray discussed the topic ' Democracy and its challenges ' elaborately. He discussed that democracy is the way of life in the modern state and is the best form of Govt. in the world. So, this form of Govt. introduced in most of the countries of the world. The countries like India, U.S.A. and U.K. etc. are the best example of democracy. He described the democracy is a govt. where justice, liberty and equality provided each and every citizen of a country irrespective of caste, creed, sex, religion and place of birth. Chinmaya Kumar Pradhan also presented the topic in a style of uniqueness and he described various types of democracy prevailing in different countries. Mr.Loknath Giri , Lect. in English of this college also put his views on topic . The chief guest addressed the students about the various challenges faced in a democratic country. Mr. Santanu Kumar Mati, HOD, Mr. Brudaban Das, Lect.in Pol.sc. and Mr. Sandeep Bal also presented papers on this topic. Some other students like Sujit Kumar Behera, + 3 lllrd year, Ms Chandana Behera, +3 2nd year and Janaranjan Kar, +3 IIIrd year read out their papers.

The Seminar was over with vote of thanks by Sandeep Bal, Lect.in Pol.Sc to the members present.

Topic of the Seminar: "Democracy and its Challenges".

Date: 03.04.2019

ABSTRACT

Democracy is the most popular form of govt. in which everyone has equal share. The values of freedom, respect for human rights and principles of holding periodic and genuine elections by universal suffrage are essential elements of democracy. Democratically governed nations are more likely to secure the peace, deter aggression, expand open markets, promote economic development, uphold human and worker rights. It promotes equal opportunity and liberty to each and every individual of the state. Democracy is a very good form of govt, but it also faces a number of challenges. During elections many people are coerced or bribed in to voting for a specific political party. Misuse of powers, inequality, biasedness are also found in democracy. Political violence, illiteracy, crimilisation of politics, corruption, regionalism, religious fundamentalism, communalism, casteism, gender discrimination, poverty and economic inequality etc. are several challenges faced by democracy.

A SEMINAR ON

COMPARATIVE EDUCATION: ISSUES AND CHALLENGES

Date- 12.04.2019

Venue-Derabis Degree College, Derabish, Kendrapara.

About the College:

Each and every institution has its own history. The history of **Derabis College** dates back to the year 1981 when some enlightened minds of this locality thought about the setting up a College in such a remote and underdeveloped area like Derabis with a mission and vision of providing a sphere of higher education. Their idea of establishing a centre of higher education has been a magical spirit for the then enterprising locals. Location of the College is quite convenient. Situated at the heart of Derabish, it is 03Kms away from Chhata Chhaka on NH-5(A), 07Kms from Cuttack Chandabali Road, 70Kms from Cuttack via Chandikhol and 55Kms from Cuttack via Salipur.

Mission and Vision

To provide education in the best possible form for the students to be with all round personality development leading to a prosperous career with high sense of academic excellence.

To expand education and dissemination of knowledge to the denied and underprivileged sections of men and women in the Society.

To imbibe scientific temperament with human values I the minds, for the upliftment of men and women.

To inculcate the spirit of consciousness with regards to the constitutional rights and lead them to the interest of the National mainstream.

The institutional logo comprises of three distinct dynamic features such as the temple, the burning lamp and the open book. It symbolizes that the College aims at imparting knowledge by dispelling darkness in a continuous process keeping in view of the glorious past, the dynamic present and the prosperous future.

ABSTRACT

COMPARATIVE EDUCATION: ISSUES AND CHALLENGES

DATE - 12.04.2019

This Seminar takes an autobiographical approach, which is applied in order to devise a panorama of comparative Education, as it has developed during the past four decades. It identifies five 'paradigms' which has been dominant in debates, inquires and projects carried out by Comparative Educationists in various regions: East-West conflict, large scale educational reforms, inter-cultural education in multicultural societies and gender issues, transformation process and 'post-modern revolt' against the pre-dominant theories of modernity and universalism cultural pluralism. The changes of these paradigms have been stimulated by developments and trends in the socio-economic, political and cultural framework as well as by the continuous debates within the science. The current period seems to be primarily determined by the challenges to comparative education.

A SEMINAR ON

"GENDER EQUALITY"

DATE- 15/03/2019

Venue-Derabis Degree College, Derabish, Kendrapara.

About the College:

Each and every institution has its own history. The history of **Derabis College** dates back to the year 1981 when some enlightened minds of this locality thought about the setting up a college in such a remote and underdeveloped area like Derabis with a mission and vision of providing a sphere of higher education. Their idea of establishing a centre of higher education has been a magical spirit for the then enterprising locals.Location of the College is quite convenient. Situated at the heart of Derabish, it is 03Kms away from Chhata Chhak on NH-5(A), 07Kms from Cuttack Chandabali Road, 70Kms from Cuttack via Chandikhol and 55Kms from Cuttack via Salepur.

Mission and Vision

- To provide education in the best possible form for the students to be with all round personality development leading to a prosperous career with high sense of academic excellence.
- To expand education and dissemination of knowledge to the denied and underprivileged sections of men and women in the Society.
- To imbibe scientific temperament with human values I the minds, for the upliftment of men and women.
- To inculcate the spirit of consciousness with regards to the constitutional rights and lead them to the interest of the National mainstream.
- The institutional logo comprises of three distinct dynamic features such as the temple, the burning lamp and the open book. It symbolizes that the College aims at imparting knowledge by dispelling darkness in a continuous process keeping in view of the glorious past, the dynamic present and the prosperous future.

The objective of the Seminar is likely:

1. **Promote Understanding of Gender Equality Principles**: To educate students about the fundamental concepts and importance of gender equality, including its impact on various aspects of society such as the workplace, education, and personal relationships. This includes examining historical context, current challenges, and the benefits of achieving gender equality for all genders.

2. **Empower Students to Advocate for Change**: To provide students with practical tools and strategies for advocating gender equality in their communities and future professional

Seminar Report

Event Title: Gender Equality

Organizer: Department of Sociology, Derabis College, Derabish, Kendrapara

Date: 15.03.2019

Venue: Hall No. 13, Derabis College, Derabish

Briefing of the Seminar

On March 15, 2019, the Department of Sociology at Derabis College, Derabish, organized a state-level seminar on the topic of "Gender Equality." The event featured notable speakers including Dr. Srinivas Bhuyan, Retired Reader in Sociology from H.N.S. College, Chandol, as the Chief Guest, and Dr. Rajendra Prasad Tripathi, Reader in Sociology and Principal of Kendrapara Autonomous College, Kendrapara, as the Chief Speaker.

Key Discussions

Dr. Bhuyan and Dr. Tripathi emphasized the fundamental right of every individual to lead a life free of discrimination. They elaborated on the concept of equality, defining it as a state where all individuals are treated equally regardless of caste, gender, color, profession, or social status. The discussions underscored the importance of achieving true gender equality as a cornerstone for a just and equitable society.

Seminar Proceedings

The seminar was presided over by Sri Chaturbhuja Kar, Principal in-charge of Derabis College. In his opening remarks, Sri Guru Charan Sethi, Head of the Sociology Department, highlighted the relevance and importance of conducting a seminar on such a significant topic. His address set the tone for the insightful discussions that followed.

Conclusion:

The seminar concluded with a vote of thanks proposed by Ms. Pratima Swain, Lecturer in Sociology at Derabis College. She expressed gratitude to the speakers, participants, and organizers for their contributions to the seminar's success.

Principal
DERABISH COLLEGE

The event proved to be highly beneficial for both the faculty and students of the college, providing them with a deeper understanding of gender equality and its critical role in society.

Time-10.30 Am

Seminar Abstract.

Sri Gurucharan Sethi

H.O.D, Sociology.

Organizing Secretary,

Introduction,

Gender Equality or sexual equality is the state when all human being can have easy access to all the opportunities resources etc.They should be granted equality in developing their future, equality in economic participation, equality in the way of life style, equality in granting freedom to make decision, equality in almost everything they go through in their life.

Aims if Gender equality.

It eliminates all kind of discrimination between male & female, Gender equality ensures equal rights and opportunities for male and female, be it at home or in educational institutions or at workplace ,Gender equality guarantees, political, social and economic equality. These Gender based inequalities are to be removed from society by bringing about gender equality.

Causes of Gender Inequality:

We all know how how women's are treated in society due to lack of awareness and inequality. There are several hurdles in the way of achieving gender equality. The people mind set dwells on the deep rooted patriarchal system. Boy are given more value compared to girls who are just looked upon as burden .

From ancient time there is certain stereotype and role set for different gender like man are bringing money to the house and women are for doing household works looking the family.

Poverty is another big reason of Gender inequality because it pushes girls into sexual abuse, child trafiking,force marriage and domestic violence, insensitivity towards women exposes them to rapes, stalking threats, unsafe atmosphere at work place and roads due to which achieving gender equality has become to tough task.

Principal
DERABISH COLLEGE

How to Remove Gender Inequality:

There are many possible solutions or effort to improve gender equality, Parents must teach their boys to respect girls and takes them as equals school education and social cultures also play as important role in spreading gender equality, awareness campaigns, complete eradication of female feticide. The dowry system and early marriage should be tough the students.

Govt.effort to for fight Gender equality:

There have been many initiatives by the govt. to fight against gender inequality moreover. Some of law enacted by Govt.also provide protections to people irrespective of their gender,. The sexual harassment of women at work place (Preventions,Prohivitions) and redressal Act 2013.also people covers regardless of their age or business status and secure them against rude behavior all working, both in the open & private segment.

Conclusion:-

This discusswion is not about finding women everything a man can or the other way.it is about giving and respecting birth gender's differences and beheviours,This discussions with help both the family and whom to understand their right, gender equality means respecting and treating all gender equality.
